

# Summit Project Plan

---

**Project Title**

Virtual Book Discussions

**District/  
Organization**

Lake Holcombe School District

---

## Project Description

The goal of this project is to connect educators through virtual book discussions. The virtual book discussions will allow teachers to interact with colleagues and provide resources to combat stress.

The team aims to leverage Google+ Communities as the discussion platform. Attending the summit will help them in creating a plan to support and encourage discussions in the Google+ Community, create a list of appealing books to offer to teachers, and devise a promotion strategy to get the word out.
